The **air cooler** will lower the room temperature but the maximum cooling effect is felt when a person is in the flow of air coming from the air cooler. For this reason, the evaporative air cooler is ideal for those rooms or open spaces where people congregate. Its portability makes it the ideal solution to solve heat problems for: Kitchens, factories, people gathered in offices, conference rooms, waiting rooms ……

The evaporative air cooler is ideal for keeping people cool at very low cost in those places where it is not practical or economical to install traditional air conditioning.

Natural Air Cooling: Uses water and air for environmentally friendly cooling.
Lower Energy Bills: Consumes only 18-25% of the energy compared to air conditioners.

Open Doors & Windows: Allows for open airflow, unlike traditional air conditioners.
Outdoor Cooling System: Reduces outdoor temperatures by up to 12°C without noticeable humidity increase.
Air Swing Function: Evenly distributes cool air for comprehensive coverage.
Remote Control: Offers convenient and effortless control of the cooler.

AIRCOOLER 60SQ
Product Specifications:
Airflow: 6,000 m^3/h
Motor: 130 W
Water Consumption: 4 - 6 L/PH
Water Tank Capacity: 50 L
Max Cooling Area: 60 m^2
Noise Level: <40 dB(A)
